German Army Near Swiss Border Surrenders To Allies

Million German Troops Surrender During Morning

Hostilities Cease In Denmark, Holland And Northwest Germany Today

NAZIS IN NORWAY MUST SURRENDER

By JAMES L. KILGALLAN
(U. S. Staff Correspondent)

PARIS, May 5.—Hostilities in Denmark, Holland and northwest Germany ended officially today amid growing indications that Allied forces were preparing an all-out assault against Nazi bastions in Norway.

Gen. Dwight D. Eisenhower's communique said the "cease firing" order, estimated to affect at least one million troops, was made on schedule at 8 a. m. (2 a. m. EWT) in compliance with the unconditional surrender terms of Field Marshal Sir Bernard Montgomery.

Simultaneously a radio station identifying itself as "Austrian" broadcast an unconfirmed report that the capitulation of German troops still fighting in Czechoslovakia was imminent.

Norway Must Capitulate

A spokesman at Allied supreme headquarters said that unless the Germans in Norway, estimated to number 150,000, capitulate, the Allies unquestionably will take the fight to that country.

The London Evening Standard quoted Stockholm sources saying that Reichs commissioner Josef Terboven already had offered the Allies the unconditional surrender of his troops in Norway. There was no confirmation of the report from official sources.

British Scent Nazi Build-up In Surrender

By CHARLES A. SMITH
(U. S. Staff Correspondent)

LONDON, May 5.—Official quarters in London today expressed fears that by the very manner of their surrender German military leaders are following a plan which they will try to utilize to their political advantage.

The Germans, it was said, even in the hour of their worst military defeat, may be carefully building up a myth for future generations to the effect that the German army surrendered to save Europe from bolshevism.

Identical Policy

As these quarters viewed it, although Heinrich Himmler's offer of unconditional surrender to the Anglo-American powers was rejected, that identical policy is now being carried out piece-meal by

German military commanders in the field.

The possibility that the whole pattern of surrender was carefully worked out and that Grand Admiral Karl Doenitz is playing a key part in the plan was seriously considered in the British capital.

Admiral Doenitz' latest proclamation to the German forces which still are holding out stressed the "bolshevik" theme and the "necessity" for German troops in the east to holdout against the Russians.

It was seriously suggested in London that President Truman and Prime Minister Churchill might spike the effectiveness of this move with a declaration that would clearly state that Germans surrendering to American or British armies were considered the prisoners of all the Allied powers—including Russia.

GUAM, May 5.—(INS)—A small force of B-29 Superfortresses raided three airfields on Kyushu Island today following two other strikes at the Japanese homeland.

Earlier in the day attacks were made on the vital Hiro naval aircraft factory, five miles east of Kure, on southeastern Honshu, and on two Kyushu airfields.

"Good results" were obtained in the three separate strikes which were all made by daylight, with bombs being dropped from medium altitudes.

Molotov Reveals Polish Leaders Were Arrested

Men Who Disappeared In March Were Taken Into Custody By Soviet

(U. S. Staff Correspondent)

SAN FRANCISCO, May 5.—(INS)—V. M. Molotov, Russian foreign commissar, today notified the United States and Britain that the sixteen Polish underground leaders, who disappeared in March in Russia, were arrested "on the charge of diversive activities against the Red army."

This announcement provoked discussion with Russia over admission of Poland to the United Nations conference.

Molotov disclosed the arrest of the sixteen Polish underground leaders in conversations with Secretary of State Edward R. Stettinius and British Foreign Secretary Anthony Eden. Both Stettinius and Eden asked for a full explanation of the arrests, and for "news of their present whereabouts."

The British called a special news conference this morning to announce the Russians' disclosure.

A British spokesman made the announcement. He said:

"Mr. Eden and Mr. Stettinius immediately expressed their grave concern to M. Molotov at receiving this most disquieting information after so long a delay, and asked him to obtain a full explanation concerning the arrest of these Polish leaders, a complete list of their names and news of their present whereabouts."

"The foreign secretary has reported this most serious development to H. M. G. and has informed M. Molotov that meanwhile he cannot continue discussions on the Polish issue."

The British viewed Molotov's disclosure as a "most serious development" which was reported immediately to London.

Both Stettinius and Eden expressed their "grave concern" to Molotov at receiving this disquieting information after so long a delay.

Moscow Reports Say Stiff Resistance Being Encountered In Czechoslovakia

RUSSIANS DRIVE TOWARD PRAGUE

By NATALIA RENE
(U. S. Staff Correspondent)

MOSCOW, May 5.—Soviet armies hammered deeper into Czechoslovakia toward the capital city of Prague against fanatical resistance today after smashing ten-mile gains dislodged the Nazis from the fortified Moravian stronghold of Horna-Becva.

At the same time, Soviet forces continued to mop-up enemy pockets above and in Berlin. A total of 45,700 prisoners were taken yesterday more than 23,990 west of Berlin.

An additional 22,600 Nazis were captured in Russian advances north of Wittenberge and above fallen Stettin, where assault forces stormed the Die-nau canal and occupied the Baltic town of Wollin.

Meet Resistance

With German armies surrendering piecemeal to the western Allies, Soviet forces driving to reduce the Czechoslovakian reborn met fierce resistance from enemy troops entrenched in the mountains.

Soviet infantry and armor, outflanking enemy resistance centers smashed through German defenses to capture the town of Vukov in Moravia.

East of Bruenn, Nazi bastion on the road to Prague, Red army forces driving along both sides of the Moravia river hurled back enemy counter-attacks to capture the town of Kreutzburg and 10 other localities.

In this action an entire motorized SS regiment was annihilated.

V-E Day In Europe To End Brown-Out

Head Of War Production Board Announces Plan For Ending Brown-Out

(U. S. Staff Correspondent)

WASHINGTON, May 5.—(INS)—J. A. Krug, chairman of the War Production Board, announced today that the brown-out will be revoked immediately after President Truman announces that the war in Europe is ended.

The emergency measure designed to save coal and to be a morale-boosting order on the home front, became effective Feb. 1.

It called for the suppression of all outdoor advertising, promotional displays and other electrical lighting in areas where electricity was produced by scarce fuels, including coal.

"The end of hostilities in Europe will not solve the national coal shortage," Krug said, "and it may be necessary to reissue the brown-out order sometime during the fall of this year, if at that time stocks of coal have not been replenished to a satisfactory level."

"Continued all-out conservation of fuel in homes, offices and stores will continue to be necessary."

The brown-out order was issued at the direction of former War Mobilizer James F. Byrnes and was expected to save an estimated two million tons of coal.

See Possibility Of Nazi Sub Warfare

WASHINGTON, May 5.—(INS)—The possibility of a Nazi submarine campaign based on Norwegian ports was seen in Washington naval circles today as a potential last phase which the war in northern Germany may take.

The surrender of German military forces of Holland, Denmark and the north German coastal districts was specifically described by Gen. Dwight D. Eisenhower, according to dispatches, as being "purely a land army surrender."

Might Leave Naval Forces Free

This might leave Germany's naval forces free to conduct a fighting evacuation of the Nazi mainland ports, and transfer as much of their supplies and personnel as possible to Norway for a battle to the end.

Huge Secret Headquarters Of Nazis Found

German General Staff Headquarters Located Underground 20 Miles From Berlin

MOSCOW, May 5.—(INS)—Soviet troops have captured a secret underground headquarters of the German general staff in the village of Zossen, 20 miles south of Berlin.

This headquarters was nominally in Berlin. Although the flag flew there, all the work actually was done in Zossen in what virtually was a subterranean township with concrete chambers completely hidden from air reconnaissance and entirely self-contained.

Shown Around

The chief electrician, who had stayed behind when the Germans left, obligingly showed the Red army around. Entering an underground passage they went down a seemingly endless spiral staircase—the elevator was not functioning—and four long corridors stretching in all directions.

It was obvious that the brains of the Wehrmacht had been taken completely unaware by the speed of the Red Army advance. The floors were covered with papers, maps and staff records.

NEW TWIST GIVEN TO HITLER LEGEND

LONDON, May 5.—(INS)—The London Daily Express added a new twist to the Hitler legend today.

Attributing its information to "latest and unofficial and unconfirmed reports," the newspaper said the supposedly-dead Fuehrer and six of his top-drawer aides "may be on their way to Japan by U-boat."

His companions, the report declared, are Herman Goering, Heinrich Himmler, Martin Bormann, Robert Ley, Paul Joseph Goebbels and Joachim von Ribbentrop.

Except for a few Jap pockets, said Mountbatten, all of the British dependency is now free of enemy control.

Cleanup of Jap units around Rangoon continued and the jail and government house were taken. Syriam, southeast of the city, also was occupied.

A forecast of the coming territorial gains showed down progress on the 14th Army front where flooded mines and booby traps obstructed the Allied advance.

Three U. S. Armies End Fighting In War In Europe

Believe First, Ninth And Fifteenth Armies Have Concluded Combat In Europe

By KINGSBURY SMITH
(U. S. Staff Correspondent)

PARIS, May 5.—The war in Europe was almost over today.

Nazi Germany is breathing its last convulsive gasps.

All Europe is eagerly awaiting the proclamation of Allied victory although it may be several days or perhaps longer before hostilities actually cease.

One aspect of the present situation that should cause special rejoicing to America is the fact that fighting appears to be ended for three of Gen. Dwight D. Eisenhower's five American armies.

Three Armies End Fighting

The American first, ninth and 15th armies have in effect ended the combat operations which means that families of the men in their armies no longer need to fear that they will be killed in action in Germany unless some unexpected trouble develops.

The U. S. third and seventh armies are still fighting in southern Germany, Czechoslovakia and Austria, but Nazi resistance is diminishing rapidly. The days of heavy casualties for American boys on the western front appear to be over.

Norway remains the last major pocket of resistance to be disposed of before victory can be proclaimed.

The Germans in Norway are generally believed to be on the verge of capitulation and it would surprise no one if negotiations for the surrender of Nazi troops there already are underway, probably in Sweden.

Danish People Show Gratitude For Liberation

Deep Gratitude Is Expressed To Allied Powers By King Christian X

LONDON, May 5.—(INS)—King Christian X, broadcasting to the Danish people today on the first day of their new freedom, declared that Denmark greeted her liberators, the allied powers, with deep gratitude.

We can again freely show our flag and control our own affairs ourselves," the king said.

King Christian had a special word of thanks to the leaders and all ranks of the freedom movement which has created Denmark's liberty today.

He said he wished to remember all those who gave their lives for the freedom of Denmark.

King Christian warned that the coming months would bring with them many difficulties and would demand sacrifices from all Danes but appealed to his countrymen to bear those burdens in unity.

DETROIT, May 5.—(INS)—The Ford Motor company has no plans for the future use of the \$100,000,000 bomber plant at Willow Run, Henry Ford II, executive vice president, told Willow Run workers at Army-Navy "E" presentation ceremonies.

Ford said the wartime utility of the huge bomber plant had been fulfilled. He described it as "expensive."

He offered some hope to the plant's workers, who expect to be laid off by August, when he said: "We hope to be able to offer you that he is rising and get, more, receive the necessary go-ahead from the government."

German Force Operating On Southeastern End Of Western Front Gives Up

SURRENDER IS UNCONDITIONAL

By JAMES L. KILGALLAN
(U. S. Staff Correspondent)

PARIS, May 5.—One of the few effective German armies operating on the continent of Europe gave in today in an unconditional surrender effective at noon (6 a. m. EWT) tomorrow.

The surrender was that of German army group G, commanded by a General Schulz, which capitulated to Gen. Jacob L. Devers, commander of the Allied Sixth Army group.

This German force has been operating at the southeastern end of the western front in the vicinity of the Swiss border.

In a special statement, Gen. Dwight D. Eisenhower announced that the German surrender was believed to involve from 200,000 to 400,000 Nazi troops.

Observers declared that, even more important was the fact that the move meant the end of all major resistance on the western front and the virtual collapse of the enemy's national redoubt.

Believe Fighting Ended

Gen. Devers sent word to Gen. Dwight D. Eisenhower at Paris of the new capitulation.

It is believed that hostilities between this German army force and American and French troops already have ceased even though the surrender is not effective officially until tomorrow.

Both Allied and German broadcasts announced cessation of fighting.

ing. The probabilities are there will be no more bloodshed and loss of life in this sector.

Battlefield Surrender

Gen. Eisenhower announced that as in the case of northern Germany, Denmark, Holland, Heligoland and the Prussian Islands, this was a "battlefield surrender."

Only a small area of soil is still held by German troops between Gen. Devers and the Russian armies commanded by Soviet General Rodion Malinovsky in territories already overrun to the west of Vienna.

In effect, this means that except for Norway, which is expected to surrender momentarily, and a small pocket centered around Prague, all of Europe has now been restored to peace and liberty and freed from Nazi tyranny.

Several Hundred Thousand

Headquarters spokesmen said it was impossible to tell exactly how many Germans were affected by the newest surrender, since many of them may have been shifted eastward out of that sector to meet the Russians.

However, it was believed at least several hundred thousand troops were included and, still more important, the move meant the virtual collapse of both the German national redoubt and of all major resistance on the Western Front.

(Reuter quoted unofficial sources as estimating that from 200,000 to 400,000 German troops were involved.)

Resistance Near Berlin

Resistance continued even west of Berlin, where more high-ranking Nazis fell into the hands of Soviet troops still vainly searching for the bodies of Adolf Hitler and his propaganda mouthpiece, Paul Joseph Goebbels.

South of Brandenburg, the Soviets smashed through a densely wooded area and captured the town of Belzig after a 12-mile advance across marshy ground cut by winding streams.

"Groups of enemy infantry and tanks attempted to put up resistance but, were dispersed," the Soviet communists declared.

"North of Wittenberge the Hitlerites, retreating under the blows of our troops, are blowing up bridges and building road blocks," the communists continued. "Soviet forces are forging ahead."

**MILLION GERMAN
TROOPS SURRENDER

(Continued From Page One)

ern troops involved an estimated million officers and men and opened seven great Dutch and Danish ports to Allied use.

In the south the U. S. Third, Seventh and French First Armies continued to swarm through the German national redoubt against crumbling opposition.

Patton Races Ahead

Lieut. Gen. George S. Patton's troops raced through gains of more than 18 miles along a 50-mile front extending from 15 miles north of Salzburg to five miles north of Linz.

The Seventh Army, already in possession of Hitler's stronghold of Berchtesgaden, consolidated its junction with the U. S. Fifth Army in Italy after racing through the Brenner pass, once a favorite meeting place of Dictators Hitler and Mussolini.

A field dispatch said the end of formal resistance along the western sector of the American Seventh front appeared to be in sight. Resistance already had collapsed along a 70-mile front extending from 30 miles east of Austria's western tip to Innsbruck, captured capital of the Tyrol.

Nazi Prisoners Increase

The giant toll of Nazi captives continued to crowd the bulging Allied prisoner pens on every front. The American Third Army alone seized an estimated 20,000 more prisoners, including four Nazi lieutenant generals, in 24 hours.

Field Marshal Montgomery said the Germans themselves said that more than 1,000,000 officers and men were involved in the mass surrenders in Holland, Denmark and the northwestern part of the Reich.

Nazi bigwigs also continued to fall into Allied grasp. The Seventh Army captured Max Amann, chief of the Nazi press and publisher of Mein Kampf who also served as lieutenant to Gestapo Chief Heinrich Himmler. Amann, who was Hitler's sergeant in the last war, was captured near Berchtesgaden.

At the same time the Luxembourg radio reported that Wilhelm Frick, former Nazi minister of the interior and later "protector of Bohemia," had been captured near Munich.

Trouble apparently was brewing in Prague, capital of Czechoslovakia, recently declared an open city by Reichsfuehrer Grand Admiral Karl Doenitz.

**Water Company Files
Health Safety Rule**

No More Cross-Connection In Pipe
Line Permitted—Is Health
Measure

Announcement was made today by J. Leperie Matthews, manager of the City of New Castle Water company of the filing of a new tariff by the company with the Pennsylvania Utility Commission regarding cross connections and inter-connections.

In the future they will be absolutely prohibited as a health safety measure in cities.

Cross-connections are those connections which connect the supply lines of the water company with other sources of supply such as rivers, lakes or wells. This practice is dangerous in that pollution from the unfiltered water might get into the pure water lines of the company.

The practice is rare and in what few places it exists is confined for the most part to industries which have been rapidly expanded by the war. In order to safeguard the health of the public the company has felt it necessary to place a ban on the practice and if there are such cases in this district it is requested that the persons or company involved get in touch with Mr. Matthews for further information.

**April Temperature
Was Above Normal**

Excess Amounts To Five Degrees
Per Day, Despite Recent Damp
Chilly Weather

In spite of the damp chilly weather experienced today, the latter part of April it will come as a surprise to many that there was an excess of 52 degrees in April's temperature. The early part of the month, in carrying over March's extremely warm weather, provided the extra degrees. U. S. Weather Observer B. F. Johnson reports.

The mean maximum temperature was 67.6 degrees, and the mean minimum temperature 39.6 degrees. The mean or average was 53.6 degrees. The highest temperature was 82 degrees, recorded on April 13 and 14, while the lowest was 27 degrees, noted on April 6 and 22. In April of 1944, the highest temperature for the month was only 76 degrees, and the lowest was 17 degrees. April temperatures last year were 15 degrees below the normal.

The precipitation during April this year was 4.49 inches, an excess of 1.07 inches above the normal for the month. Last year there was also an excess of 47 inches. The greatest in 24 hours was 93 inches, which occurred on the 25th of the month. The snowfall was almost negligible, amounting to two tenths of an inch. Last year in April, 17 inches was recorded.

There were only six days during the past month that the minimum temperature was 32 degrees or below. Days with 01 inches or more of precipitation were 12, days with 25 inches or more of precipitation were 6; days clear, 10; partly cloudy, 13; and cloudy, 7.

Electric Shock**

Henry Cecoli, aged 16 years, of 824 Arlington avenue, was injured just before noon today at the plant of the National Power company on Butler avenue extension, when he suffered an electric shock, while at his work.

Although he came in contact with only a 110-volt charge, he was rendered unconscious, and the City Fire Department rescue squad and Pennsylvania Power company first aid men were called to the scene. He had recovered consciousness by the time they had arrived and was taken to the New Castle hospital for further treatment in the fire department ambulance. His injuries, however, are not believed to be of a serious nature.

THREE U. S. ARMIES END FIGHTING IN WAR IN EUROPE

(Continued From Page One)

Doenitz has been reported to have fled to Norway, supposedly to continue the fight there and his arrival might cause a last-minute hitch. Nevertheless, it is believed that such a development could only delay for a short time the final and complete military defeat of Nazism.

The allied high command considers that the head of the Nazi snake has been lopped off and we are merely witnessing the death wiggles of the tail. This will stop soon.

There are growing indications that the Czechoslovak pocket is not going to be a stubborn obstacle to overcome. The Germans appear to be fighting a rearguard action there against the Russians simply to gain time by which they hope to surrender to the Americans.

Frontline reports indicate that utter chaos is all that remains in the unoccupied areas of Germany with tens of thousands of panic-stricken Germans struggling to reach American lines in order to escape capture by the Russians.

The communique listed at least 154 Jap aircraft destroyed in yesterday's operations in and around the Okinawa area and fifteen enemy suicide boats sunk.

Japanese air attacks cost the American sea forces five light surface units sunk and an undisclosed number of others damaged.

Personnel losses to the Japanese in the abortive sneak landing attack were not disclosed by Nimitz but International News Service Staff Correspondent Julian Hart in a frontline dispatch, said that more than 200 bodies of bullet-riddled Japs were counted on a coral reef off the west coast of the island.

METROPOLITAN SOPRANO

Another Star Feature of the 1945-46 Series of Programs.

Though critics have strained at their vocabularies trying to capture it in words, the magic that is Lotte Lehmann is something that must be seen and heard to be fully appreciated. Like most supremely gifted people, Lotte Lehmann has more than one gift of self-expression. She has, in fact, gained fame as a writer of poetry, fiction, article, and an autobiography. Also, she has won several awards for her painting and sketching. But even had the Muses of music, writing and art not been present at her birth, Mme. Lehmann would have attained fame. No less a dramatic authority than Max Reinhardt has said of her that even if she could not sing a note, she would still be without peer as an actress. It is the world's gain that Lotte Lehmann has chosen the universal language of song.

Charge Cruelties In Concentration Camps In Norway

STEN HEDMAN

(U. S. Staff Correspondent)

STOCKHOLM, May 5.—A well-known Norwegian author, Arnulf Overland, said today after an escape from Nazi concentration camps in Norway that the German treatment of prisoners there rivalled in brutality anything uncovered in Germany.

Overland was taken prisoner by Norwegian Quislings and Germans in Oslo and later sent to a concentration camp at Sachsenhausen, he said today in a story published by the Swedish newspaper, Dagens Nyheter.

Most of the guards were ex-Communists who had turned Nazi. Overland said, or were German criminals who were rewarded for spying on political prisoners. Their information often resulted in hundreds of political prisoners disappearing, he declared.

These guards were of the lowest types and had virtual life and death control over the prisoners. Three formations of prisoners were marched out each day at Sachsenhausen. Overland said. If an SS guard pointed to any one man at random and said he did not want to see him the next day the man would be hanged or killed by being beaten to death with canes.

When it became obvious that Germany was breaking up, the situation of the prisoners improved somewhat, the Norwegian writer said.

When Is a Loan Profitable?

Important To Know

Borrowing, for Home Purchase, is the largest money obligation the average family assumes. It should prove profitable, in more than happiness. It should return, in hard dollar-value, more than it costs! The Direct Monthly Reduction Home Financing First Federal offers to Home Buyers does this. Its money-saving advantages can be explained in a few minutes.

WHEN V-E DAY ARRIVES, LET'S STAY ON THE JOB.

With most of the once mighty German armies headed into Allied prison camps, with the remaining hordes of those armies surrendering by the thousands to escape the wrath of Allied bombing and bombing, V-E Day is not far off. If it comes in a few days, it may come a little later, but it is almost here.

When it comes, let's meet it with humility. Other than humility, with playfulness rather than playfulness, let's thank the Almighty for his favor to us, and keep on the job.

There's still a war to fight after the Germans surrender completely. The men in the foxholes of the South Pacific area won't be taking the day off, and they won't be doing any celebrating until Japan is defeated. Can we do any less? Of course it will be a great day when the last German lays down his arms, but the Japs are still tough. Let's remember the job isn't done yet. Let's stay on the job.

On Second Thought

Here's a way you can celebrate V-E Day. Buy another War Bond.

White Russians And Ukrainians To Join Conference Tuesday

SAN FRANCISCO, May 5.—(INS)—Ukraine and White Russia, last Monday admitted as full-fledged members to the United Nations conference, will formally join the conference next Tuesday when the delegations from these two Soviet republics are expected to arrive in San Francisco, authoritative sources disclosed today.

It was learned that top man in the Ukrainian group is G. Manuil-Ky, who has been an active force in the communist party and leader of the "Left" movement before that group's expulsion not so long ago. He is expected to arrive from Moscow.

The White Russian group is headed by R. B. Denikin, who has been attached to the Soviet foreign office as special adviser to Foreign Commissar V. M. Molotov.

It was revealed that the two delegations have already left Kiev and Moscow, capitals of the Ukraine and White Russia, respectively.

When they reach San Francisco, probably Tuesday, Molotov is expected to introduce them formally and to make his delayed departure for Moscow.

Present Play At High School

Dramatic Class Stages
"Youth Takes Over" On
Friday Night At
Auditorium

Dramatics class of the senior high school presented a lively comedy, "Youth Takes Over," in the high school auditorium Friday evening. All action of the play takes place in the principal's office of a small high school and revolves around the activities of a league of young citizens.

Darwin Sloan gave an entertaining performance as Albert Williams, "problem student" of the high school, a diddled kid as Snooky Phipps, his loyal champion.

Other outstanding performances were those of Ralph Shiner as Dr. Peterson, the principal, one of whose theories was "make a bad boy busy and you have a boy too busy to be bad," and Roy Pitzer as Pon, whose makeup and clever bits of stage "business" as janitor of the school, added much to the play.

Another interesting member of the cast was Joan Cox as Mrs. Rathbone, vigorous and strait-laced leader of community reforms who softened up "considerable" after she got her picture in the paper, snapped at the faithful her "young citizens" put on to raise funds.

"Villain" Part
Most plays have villains in one disguise or another and in "Youth Takes Over" it was Bill McAnally as Swinburne Jones, prim, mild-mannered and smug, but a villain nevertheless.

Jack Fisher as Mr. Andrews, a teacher, in both his portrayal and makeup gave an outstanding performance as a comic relief character.

Other members of the cast whose characterizations helped to move the play along at a fast and entertaining tempo were Avice McGavin, Marilyn Reeves, and Sylvia Epstein as Miss Gunther, Miss Stickney and Mrs. Thurston, respectively, all teachers; Betty Blewitt as Ethel, Charles Shaw as Gus Landers, James McClintock as Red Barry, Mary Lou Brunton as Dottie Brice, Fred Duff as the postman and Katynelle Sherman as Mrs. Jones.

The cast also included Donna Jean Dagnon and Josephine Mazzei as a sister team, Peggy and Betty Brown; Mary Butz as Gloria, Peggy Lamoree as Barbara, Marjorie Crawford, Barbara Harcar, Jackie Kradel, Mary Shuttlesworth, James Conan and William Wallace. Miss Clara Hartsuff, who directed the play, was preside with an orchid from the cast after the second act curtain. Ralph Shiner made the presentation.

Overture and intermission music was played by the high school band directed by Joe Replegle.

The word "copper" originates from the name of the island of Cyprus in the Mediterranean sea. This island was at one time famous for its copper mines.

Both noon and evening meals will be served by the ladies of the entertaining church, and a meeting is being called after the prayer service Wednesday night, May 9, at the First Presbyterian church, at which time some leaders from the entertaining church and some members of the county executive committee will meet to discuss plans for the convention.

THE GREAT GAME OF POLITICS

(Continued From Page Four)

Connally anti-strike bill, etc. Look also at his acquiescence in the appointment of Mr. Robert Nathan as deputy war mobilization director in charge of the great reconversion problems. Mr. Nathan is one of the most advanced of the Administration "liberals"; in fact, so advanced that his appointment somewhat appalled conservatives here who assert that he lacks both the experience and knowledge to deal with the very vital business of reconversion. And finally, look at the Lillenthal appointment.

THE "liberals" advance still other evidence to show that Mr. Truman's soul belongs to them. But both they and the conservatives appear to minimize the strength of a third element engaged in the struggle—to wit, the politicians—the politicians who care little about issues or principles, conservatism or liberalism, but are strong on party organization and winning elections. There are a good many of these here now and Mr. Truman numbers quite a lot of them as his personal friends. Also Mr. Truman is a politician himself of a very practical kind—a machine politician who knows the game and has played it for a good many years. One of his close friends is Chairman Robert Hannegan of the Democratic National Committee, who is from his own state and whom he has just nominated as Postmaster General.

AND THERE are other politicians (neither conservative nor liberals but just politicians) who are pushing themselves into the White House picture, appearing on the White House calling list and acting pretty smug about the White House generally. At bottom, their belief is that Mr. Truman is one of themselves. Perhaps he was, but there is always the chance that the great office he now holds may change him. At any rate, there is nothing much in his recent acts or words to indicate that the practical politician is still his preferred bedfellow. The outstanding political appointment, of course, is that of Mr. Hannegan as Postmaster General. Another is that of Mr. Edward Pauley, treasurer of the Democratic National Committee, as chief reparations representative. Chief reason for viewing this as political is that no other reason has been advanced for naming Mr. Pauley to this post which some believe the most important the President had in his gift.

LITTLE is known about Mr. Pauley except that, according to some of the larger contributors, he was rather hard boiled and ruthless in collecting money for the last campaign. It is agreed that the President is justified in sidetracking Mr. Isidor Rubin as our chief reparations representative but it is much doubted that in doing so he has named a man who knows and cares about the subject some say not much. If the politicians put this over on the President it is to be hoped that they lose out in the struggle. Of course it may result in the President's keeping his own soul, which will be very much in the national interest as well as his own. That is the hope. Certainly the appointment is made entirely on his own, without consultation with either liberal or conservative leaders and without even a trace of political pressure, is distinctly his best. This was that of Mr. Charles G. Ross as White House press secretary—a very important office, indeed. Here he picked not only a personal friend but a man of real ability, unqualified integrity and unblemished character.

THE PARENT PROBLEM

or sit for an announced definite time in the chair. In case he refuses to do the thing assigned, he has chosen the penalty. Once he has served his sentence he has fulfilled his obligation. Don't expect him then also to practice, or also to wash the dishes, or also to go for the potatoes.

Purpos of Punishment
Remember you said either or. He chose or. Anyway the purpose of the punishment is not to enforce the present command but to prepare the youngster to obey next time. Indeed the effect of all punishment should be measured by its effect on the next time. When, therefore, you give your child a positive command and he fails to obey, don't punish him until he obeys but if he fails to obey.

Even this alternative should hardly be given to a child under four or five, since if you are wise you won't give him a positive command. You won't command him, for instance, to close the door or pick up the blocks. You will ask him "you will make a positive suggestion." Having asked him and not commanded him, you will have no occasion to punish him in case he does not accede, nor even to feel angry at him. However, you will make a few negative commands, such as "Don't do that again," or "Don't go beyond that tree on the lawn," and you will spank him immediately if he disobeys. Proceeding so you should not have a stubborn child but one who is cooperative and obedient. This matter I discuss at length in my booklet, "Stubbornness," to be had in a stamped envelope addressed to me at 255 East 45th street, New York City.

DATES
Dates seem to be all the go at High School. They do not eat them; they make them and keep them. The eating kind of dates are very popular and highly nutritious. Dried dates as we get them are about the most concentrated food we have. Four dates supply about 100 calories.

They are also rich in vitamins and minerals. Children are strong for them and will eat them at meals or between times.

They are fine for the lunch box or a snack. A few dates and a glass of milk make a high class lunch.

They may be used in cooking and baking, too. "Food for the Gods" made with dates in it, is pretty good stuff.

Cancer Control Fund Campaign Closes On May 15

It was announced today in the Greater New Castle association of offices, the headquarters for the cancer control campaign, that the date for closing the campaign had been extended nationally to May 15.

Locally it is hoped to close the campaign before the national closing date, but it will take more subscriptions here. On a quota of \$5,000 there has been pledged about \$2,200, leaving \$1,800 to be subscribed, and it is hoped this will be done in the coming week.

Contributions may be sent or left in the office of the Greater New Castle association or sent to Hubert Sadler, in the Union Trust company, the treasurer of the campaign.

HILLSVILLE SEES GYM EXHIBIT BY UNION STUDENTS

Joe Thompson, boys' gym teacher, and Ruth Cowan, girls' instructor, were in charge.

SPOTLIGHT Of Today

(International News Service)

MARSHAL MONTGOMERY

(By International News Service)

For Field Marshal Sir Bernard Law Montgomery, the high spot in his long military career was the formal surrender of more than a million Nazis in Holland, Denmark and the other areas along his front in northern Germany.

This was the payoff day that he had anticipated when he launched his first major offensive back in the hot sands at El Alamein, swept westward to Tunis, then over to Sicily and Italy. And he made no bones about his elation when he whispered to reporters just before the formal capitulation: "This is the moment!"

It provided a dramatic climax to his long campaign against Hitlerism. Twice he disposed of the Nazi's best field general, Field Marshal Erwin Rommel, the first time in North Africa, the second in France. Then came the supreme moment, unconditional surrender of the million Nazis fleeing from his might.

Best-known by the beret that he wears continuously, Montgomery is a strict disciplinarian, a teetotaler and a non-smoker. He invariably uses a tent or a trailer for his field headquarters and plans his campaigns with a methodical preciseness that allowed no mathematical margin for anything but victory.

Next to the king and Prime Minister Winston Churchill, he probably is Britain's most beloved and most popular human. On his rare trips home, he is literally mobbed by thousands anxious just to see or touch "Monty," the tall, grinning field marshal who did much to insure their personal future.

Rev. C. Rohrbaugh Dies In Florida

Former Pastor Of Volant And Rich Hill Churches Passes Away Friday

Word was received Friday by Mrs. Eugene Foley of R. D. 5 that her father, Rev. Charles M. Rohrbaugh, 76, of Penn. Farms, Pa., died on May 3 at 4 p. m.

Rev. Rohrbaugh graduated from Heidelberg College, Tiffin, O. He was in the ministry for 44 years, was pastor of Volant-Rich Hill Presbyterian churches from 1925-1935. He and Mrs. Rohrbaugh had resided at Penn. Farms for the past five years.

He leaves, in addition to his widow, the following children: Mrs. F. D. Berry of Omaha, Neb.; Dr. F. J. Rohrbaugh of Zanesville, O.; Capt. John R. Rohrbaugh of the medical corps, stationed at Louisville, Ky.; and Mrs. Eugene Foley of this city.

He also leaves four grandsons and three granddaughters and an only surviving sister, Miss Olive Rohrbaugh, who has just arrived at San Francisco after release from a Japanese internment camp. She is now at a rest camp and will be unable to attend the funeral services.

Mrs. Rohrbaugh will accompany the body north, arriving at Columbiana, O., Monday morning. Funeral services will be held at the Fire funeral home, Columbiana, on Monday afternoon at 4:30 o'clock.

GNCA Repeats Plans For V-E Day Here

Business Houses Asked To Close For Balance Of Day, Churches Open

With V-E day apparently just around the corner, Roger Jewett, executive vice president of the Greater New Castle Association today reiterated the suggestions of the association for the observance of the day.

The suggestion of the Greater New Castle Association follows:

Upon confirmed notice of the complete victory of Germany, and upon the recommendation of the Retail Merchants Division, the Greater New Castle Association recommends that all stores close their place of business for the balance of the day, or if the notice is received after store hours, that all stores remain closed for the following day.

Second, it is recommended that all wholesale and retail liquor dealers, clubs and the like, close for a period of 24 hours.

Third, that the churches open for special service so that the citizens may offer their prayer for those who have paid the supreme sacrifice, and for those still in the service of their country till the final victorious conclusion of the World War.

Fourth, that war production continue without stop until Japan is defeated and World War II is won.

Fifth, we urge full cooperation in this program.

Swimming Classes To Be Continued

Industrial Women To Get Use Of
School Pools In Summer
Months

Because of the fact that so much interest has been shown in the swimming classes for industrial women the City Recreation Committee has decided to continue the classes through the summer months, according to Arthur B. Alexander, city recreation director.

These classes are held in the George Washington and Ben Franklin pools and are under the supervision of the City Recreation Committee. All working girls are eligible to join any of the classes.

The classes are in charge of certified Red Cross Water Safety Instructors. In addition to swimming for recreation an opportunity is given for all swimmers to receive recognition from the Red Cross for their swimming ability.

Girls that work at the Shenango Pottery, the United Engineering Johnson Bronze, the Bell Telephone and the Aluminum Co. are asked to register with their personnel manager any others that desire to swim may register at office of J. D. Alexander located in the City Building. All registrations must be in by May 11 and be prepared to start to swim on May 21, 1945.

Classes will be held in both pools every Monday, Wednesday and Thursday evenings. The first class each night will be from 7:00 to 8:30 p. m. and the second class from 8:30 to 10:00 p. m.

The classes will meet for 13 weeks and the fee is \$2.00.

All girls must be prepared to pass an examination of the feet and skin.

The recreation director asks that a little consideration be given to this program and only those interested in swimming register for classes as only a limited number can be accommodated.

80, Held as Slayer

AUTHORITIES at Muskegon, Mich., hold James F. Thorpe, 80-year-old farmer, for the poker-ax-gun slaying of his 68-year-old wife, Florence, during an argument over her plans to go to the country church near their home. According to authorities, Thorpe admitted hitting his wife with an ax and then, finally, shot her in the temple. She died in a hospital two hours after police arrived at the farm home, called there by Thorpe himself. (International)

Parents Hear From Released Serviceman

Sgt. Albert Leasure Sends Word Of His Release By Ninth Army Men

Parents of Sgt. Albert Leasure, local infantryman who was taken prisoner last December, have received word from their son that he has been liberated and is now with U. S. Army forces, eating chocolate bars and resting.

His parents, Mr. and Mrs. J. E. Leasure, 314 West Washington street, had previously learned of his release through the parents of Pvt. Robert L. Nelson who was one of the Ninth Army men making the rescue.

Sgt. Leasure was in Stalag 8-A the last time his parents heard from him before his release. He formerly weighed 150 pounds and is now down to 95.

The sergeant served in France, Belgium, Holland, and Germany. He is one of five sons in service, four of whom are overseas.

Franklin High Tops Struthers

Score Is 63 To 28 In Dual Meet At Struthers, Wash. High Scorer

SID LOCKLEY, JR., SETS NEW RECORD

Paced by the sensational record-setting half-mile run won by Sid Lockley, Jr., in the brilliant time of 2 minutes 16 seconds, setting a new Struthers stadium record, the Ben Franklin High track team made its first out-of-town trip for a dual meet yesterday and defeated Struthers, O., junior high team 63 to 28.

Wastlewski of Franklin was the high scorer for the meet with 16 points and was outstanding all afternoon. Bartolovich of Struthers was second high with 15 points. Ben Franklin had seven firsts and Struthers four.

Relay Carnival Monday
Young Lockley ran the fastest half-mile ever run on any Struthers track senior or junior meet. The youngest son of Sid Lockley, former New Castle High track star and former city controller and now in the U. S. navy, is destined to become a great runner when he reaches high school.

Coach Austin Cowmeadow of Franklin announced today that a big relay carnival for all three junior highs in the city will be held starting Monday afternoon at the stadium at 3:30 o'clock. On the following Monday the three junior highs—Franklin, Washington and Mahoning—will stage a big triangular city junior high championship meet at the stadium.

Outside of Lockley's record-shattering half-mile none of the other marks came close to being broken.

The Franklin team is being commended today for winning its first dual meet in the history of the school away from home. No other Franklin High team ever went out of town for a track meet. Cowmeadow reported:

NEW YORK, May 5.—Quick pickups along the sports trail: Proving that anything can happen, big Ernie Lombardi, the New York Giants catcher, has beat out two bunts this season.

One of the slowest athletes ever to plod across the American sports scene, big Ernie simply waits until the defense has moved into the outfield expecting one of his mighty pokes, then he lays the ball down lightly and gently and goes through the motions that he calls running.

Jimmy Johnston is claiming world light heavyweight championship for Archie Moore, but nobody is taking him seriously. Titles are frozen until after the war, except those few held by champs who are not in the service.

New Book Revealing
A new book by Roy Stockton, St. Louis baseball writer, called "The Gashouse Gang," is creating considerable attention, especially among eastern scribes.

Mr. Stockton defends Sam Breadon, owner of the Cardinals, against recurrent attacks based on what some call his stinginess. The book covers the antics of baseball's most colorful team, those Cardinals of a few years ago composed of the Deans, Pepper, Martin, Frank Frisch and others of a wild but winning crew.

Another baseball book has just come out also. Authored by Fred Leib, it is called "Connie Mack."

Famous Swimming Instructor Dies
OAKLAND, Calif., May 5.—(INS)—Sid Cavill, 65, internationally famous swimming instructor, and the man who brought the "Australian crawl" to America, was dead today. Death was due to a foot infection from Asiatic fever, contracted in China the first World War.

Cavill coached San Francisco Olympic club to the national swimming championship in 1920, but was better known for his importation of the crawl from Sydney, Australia, in 1899.

State Coffers Suffering From Closed Tracks

**Believe Governors Of State's
Where Racing Flourishes
Will Put Up Protest**

By CASWELL ADAMS
International News Service Sports Writer
NEW YORK, May 5.—If and when the men who run racing in the United States make any effort at all to have official Washington renew the activities of the thoroughbreds and once more hear the clack of the mutuel maws, the first move will have to come from the governors of states which had racing and are missing the tax income that the galloping steeds brought into the various state coffers.

This is the idea of Ashley Cole, chairman of the New York Racing commission. He said today that he has no intention of going to Washington to intercede for his industry and that the men in government whose states suffer drastically financially are the ones to make the plea to Washington. He also said that emissaries of the National Association on State Racing commissioners had been in touch with Fred Vinson, mobilizer of the war effort, but that Vinson, although friendly, didn't commit himself at all.

Much Too Hasty
Cole has been told nothing himself, but he feels that the banning of racing was much too hasty. He has heard the story, bruited about in sports circles, that it came about this way. Jimmy Byrnes, then in the job now held by Vinson, was being badgered on two sides. A wealthy lobby of W. C. T. U. was heckling Byrnes to close racing and so was an army bloc, headed by Major General Clay, since sent to Germany.

Meanwhile, Byrnes' friends in Camden, Aiken and other racing centers of the Carolinas were telling him that racing was important.

Then there was a cabinet meeting and the boys were talking this and that and then Byrnes entertained the gathering with the tales of the pressure that he was under concerning racing. President Roosevelt is then said to have turned to Byrnes quickly and said: "Well, then, shut it off." That was all there was to it.

Mr. Cole feels that men such as Governor Dewey of New York, which took in \$27,000,000 last year from taxes on betting at the local ovals, Governor Warren, of California, which maintains such tracks as Santa Anita, Bay Meadows and Hollywood, and former Governor Bricker, of Ohio, should be the men to show the light to Vinson and the rest.

Legion League Set For Season

Ten Teams Have Been Entered In Junior League Which Will Open On May 22

May 22 will see some 160 youths enrolled in the American Legion Junior League, pry off the lid on what is expected to prove the biggest year the league has ever enjoyed.

Ten teams have been entered, the latest entrant being the boys from the Second Baptist church, the first colored entry in the league's history. Contracts for all teams were turned in to Chairman Earl C. Moffatt of the Junior League on Thursday evening, when the opening date was picked.

From the boys on the ten teams comprising the league will be selected the teams which will represent the Perry S. Gaston Post, in the district eliminations to be held next August. The coaching staff will pick the boys and coach them will be Jennie Coen, Joe Hattman, Lou "Pick" Glitch and Mike Dittley. There will be 15 players on the regular squad, which will play a series of games with teams from Beaver and Butler county before the district eliminations start.

Teams were entered in the league are: Keystone A. C., Cozy Corners, North Hill Cardinals, South Side Lions, East Side Kirks, Sons of Italy, Dean Park Dodgers, Falcons, Fannins and Second Baptist.

It is hoped to have several of the local lodges sponsor some of the teams in the league this year and assist them.

Penn State and Bucknell, long-time football rivals, will play at Lewisburg next fall. They last played on Bucknell's home grounds in 1935.

Joe Tepsic, Guadalupe veteran, is rated one of the best baseball prospects. Coach Joe Beden has ever had at Penn State.

Representatives Meet Friday Night For Discussion Of Six-Team League

Lawrence county will have a baseball league this summer. This much was made certain Friday night as a group of interested sportsmen met at the Sporting Goods store and talked over the formation of a fast six-team league to be known as the City-County league.

Another meeting for purpose of organizing will be held next Wednesday evening at the Sporting Goods store at 8 o'clock, this being a change from the date agreed upon last night.

See Fast League
The outlook for a six-team league here this summer is very promising. The teams likely to make up the league are Ellwood City, West Pittsburg, Edinburg, Pennsylv. Railway Shops, Moose club and Shenango Pottery.

Present at the meeting last night were Ralph Ferrente and Dick Friedoff, representing Ellwood City; Piz Podenbaugh of the Moose club and Joe Veronesi of the Edinburg Tigers baseball team. Telephone conversations with the Pottery verified their entry. Also present was Leo W. Hill of the Lawrence County Umpires association, Ed Connelly and Charles P. Walther of The News sports staff. It is the purpose of the league to keep baseball alive here in Lawrence county.

FRANKIE MORAN is no longer Technical Sergeant Frank Moran—just plain Civilian Frank, having been honorably discharged from military service April 26 at Camp Pickett, Ga. He was honored with the infantryman's badge and wears the Purple Heart having suffered a gunshot wound in his right arm at St. Lo while serving with the First Army, July 20, 1944. Moran entered military service here in October, 1942. Prior to entering military service he participated in amateur boxing bouts and was considered the best lightweight in this section. He won two of three bouts with Tommy Bell who is coming money as a civilian welterweight. Although a German's bullet ripped through his right elbow and his arm was in a cast for a long time, it has apparently mended. Moran intends to take up where he left off in boxing. He intends to start training soon. He proposes to box as an amateur several times until he believes he is "right" for a whirl in pro ranks—where he can collect some of the top money that has been going to civilian fighters while he was battling the Germans.

Jack Herbert, former local expert aquatic star, will be the life guard at New Wilmington pool this summer. He has been a life guard at the Indian Creek Country club in Miami throughout the winter and will return there next fall, according to reports from Miami, Fla. . . . Shenango Valley Beagle club members will meet at 1 o'clock tomorrow afternoon at the clubhouse, Highland Heights highway.

Detroit Free Press plans to hold a Golden Gloves tournament in '46. Jockey Eddie Arcaro has been astride some very important horse flesh during his career. He estimates he has been "up" on horses that won \$3,618,587, rather important money, even in these war days. . . . Thirteen may be considered a jinx by some but to three ball players the numeral 3 is no number to cheer about. All suffered broken legs while wearing it. They are George Grantham, Rip Collins and Phil Cavaretta. They're first basemen.

Ruffles Johns, former Ne-Ca-Hi grid star, ex-gate crasher, soldier and now movie player, just dropped in from Los Angeles and presented Here & There with a photo of him playing the role of a racketeer gambler in Abbott & Costello's picture of "The Naughty Nineties." Needless to report however, that Ruffles isn't a racketeer in real life—just an ordinary good boy who is making good. . . . He had parts in other pictures namely, "Sporting Chance," "Gangs of the Water Front" and played a "Mexican Chief of Police" in Fred Astaire's picture, "Volando and the Thief." He is visiting his dad, Samuel Johns during the Syrian Orthodox Easter season.

Only One Game Played In Major Leagues Due To Inclement Weather

POSTPONED GAMES ARE PILING UP
By LES CONKLIN
International News Service Sports Writer
NEW YORK, May 5.—(INS)—From two standpoints, the epidemic of postponed games has upset the plans of many managers of major league ball clubs in the past and will continue to do so in the future. . . . Postponed games in the spring mean double-headers and in summer they mean a headache for the players. This situation is and is proving a headache for the players of teams which lack reserve strength in pitching. An outfit which has about three good hurlers, supplemented by a bunch of guys named Joe will be straitly up against it when those twin bills pile up later in the campaign. . . . By the same token, this development will work in favor of teams which have a plethora of first class hurlers. This group includes the Cardinals, Giants and Braves in the National League and the Browns and Yankees in the American circuit.

One Game Played
If the Detroit Tigers can unearth a couple more reliable starting hurlers to help out Trout, Newberger and Benton, an epidemic of double-headers will not handicap them. But if they are forced to rely solely on the sterling trio of a flock of twin bills might wellout them. . . . Another problem for the managers is that because of continued inclement weather they have been unable to test many of their rookies sufficiently in the fire of league competition. And they have only until June 15 to separate the sheep from the goats and get down to the required player limit. . . . Because of inclement weather conditions, the only contest played yesterday was a night game at Washington. In this affair, Marino Piretti let the Athletics smack him around in the first inning for five hits and four runs but they settled down and shut them out for the rest of the game. Piretti won his own game with a triple in the fourth and then scoring on Myatt's long fly. . . . Leonard underwent a pre-induction physical examination at the Sixth Service Army Command headquarters in Chicago yesterday and later his papers were forwarded to Washington. . . . Public relations officials of the command said that whenever there is any doubt of a professional athlete's physical qualification, the records are sent to Washington. Draft regulations state the records are to be sent to Washington for final classification when pro sports players are rejected. . . . Leo Houck, veteran Penn State boxing coach, fought in the professional ring as a youngster of 14.

Hank Camelli Is Inducted In Army
PITTSBURGH, May 5.—(INS)—The Pittsburgh Pirates today added Catcher Hank Camelli to its long list of service stars. . . . The 29-year-old outman, who had been a Big League player since 1943, has been accepted for army service and yesterday reported to New Cumberland reception center. Camelli had been granted a 90-day furlough. His home was in Millard, Mass., but his wife and child have been living with relatives in Beaver.

Believe Leonard Has Been Rejected
CHICAGO, May 5.—(INS)—The belief that Emil "Dutch" Leonard, 35, Washington Senators' pitcher, has been rejected by the armed services was expressed today in sports circles. . . . Leonard underwent a pre-induction physical examination at the Sixth Service Army Command headquarters in Chicago yesterday and later his papers were forwarded to Washington. . . . Public relations officials of the command said that whenever there is any doubt of a professional athlete's physical qualification, the records are sent to Washington. Draft regulations state the records are to be sent to Washington for final classification when pro sports players are rejected. . . . Leo Houck, veteran Penn State boxing coach, fought in the professional ring as a youngster of 14.

SEA CLAIMS HOUSE

TILLAMOOK, Ore.—(INS)—The Pacific ocean has claimed the last of the once fine cluster of homes on vanishing Bay Ocean peninsula. As workmen prepared to salvage the 11-room E. H. Roberts house from the eroding ridge and build two houses out of the material, a strong gale sent high breakers below the house and it majestically toppled and slid down a steep bank into the sea.

The word "Bible" means book and many people speak of it simply as "The Book."

YANK PLAYS WAGNER'S PIANO

AFTER BATTLING HIS WAY through German defenses and sleeping in soggy foxholes, Cpl. Lester Carlson of Minneapolis, Minn., a field artilleryman with the U. S. Third Army finds luxury de luxe in Bayreuth, Germany, where he found this Steinway piano from New York, dated 1876, which was used by the great composer, Richard Wagner. Half of the composer's birthplace was destroyed by a bomb hit. U. S. Army Signal Corps photo. (International Soundphoto)

YANK VIEWS GAS-DEATH CHAMBER

MAKING HIS WAY SLOWLY through a horror-haunted corridor of death, an American soldier of the U. S. 7th Army is shown entering the Nazi gas chambers which were located conveniently beside the Dachau crematory where thousands of persons were hurriedly sent to their graves. A skull and cross bones gives an added touch of the macabre to the scene. Signal Corps Radiophoto. (International Newsphoto)

SITTING IN A JEEP near Magdeburg, Germany, is Lt. Gen. Kurt Dittmar, radio voice of the German High Command, after he surrendered to U. S. Ninth Army troops. Beside him (right) is his son Berend, 16, who carried a white flag for his father as they crossed the Elbe River to give up to the Yanks. U. S. Signal Corps Radiophoto. (International)

RANGOON, SUPPLY GATEWAY, FALLS TO BRITISH

BRITISH CAPTURE of Rangoon marks the liberation of practically all of Burma, a country larger than Germany, and a long step in the mounting campaign to drive the Japs from southeast Asia. The Burmese capital, a view of which is shown above, had been in Japanese hands since May 8, 1942. Liberation of Rangoon deprives the Japs of rice and oil exports and in addition, the Irrawaddy river is now reopened as a supply route to China. (International)

JAP TRAP SNARES AUSSIE TANK OFF COAST OF BORNEO

A JAPANESE TANK trap on the beach at Tarakan island, off the east coast of Borneo, snares an Australian light tank. Engineers of the Ninth Australian Armored Division are shown using another armored vehicle in an endeavor to free the trapped tank. This is one of the first photos released on the Borneo invasion that was made after Japanese defenses on the oil-rich Tarakan had been shattered by a continuous four-day naval bombardment. This is a U. S. Army Signal Corps radiophoto. (International Soundphoto)

UNDAMAGED MILAN IN LAST MOMENTS OF WAR

SHORTLY AFTER ITS CAPTURE by Italian patriots but before the final German surrender in Italy, Milan is pictured virtually undamaged, its famous cathedral scene in the background of a street scene through which a U. S. 1st Armored Division tank rolls as the 15th Army Group took control of the city. The cathedral's bells—and all others in Italy that could ring—were later pealing glad news of victory, and streets were filled with thousands of boisterous celebrants. No Responsible Nazi Group To Act For Nation

WITH THE U. S. FIRST ARMY IN GERMANY, May 3—(INS)—Count Felix von Luckner, the "Sea Raider" of the first World War, declared today that there exists in Germany no responsible group able to capitulate unconditionally to the Allies.

Branding it "nonsensical" to speak of a full, acceptable peace offer by the Germans because of the lack of authority in the Reich, von Luckner declared:

"I don't see any possibility for any peace treaty because who would sign it in whose name? There are no parties left; no representative groups."

Doenitz No Improvement
Reiterating his formerly-expressed views that the Allies will have to re-educate Germany for years, he said there is little to choose between Adolf Hitler and Grand Admiral Doenitz, whom he described as "a dangerous front" for the same aggressive tendencies.

He declared he was glad "that super-rascal" Hitler was dead, but said Doenitz was known only for his stupidity, ambition and cruelty to his subordinates.

Doenitz, he declared, proved his dullness by issuing a proclamation to the German people speaking of the prospects of victory at the present time and by using the disapproved Nazi weapon of trying to drive a wedge between the eastern and western Allies.

In his interview with an International News Service correspondent, the count emphasized that he was speaking only as a common citizen and that he made no pretensions to political sagacity.

CONFERENCE ON INDEPENDENCE OF PHILIPPINES

WASHINGTON, May 3—(INS)—President Truman and President Sergio Osmeña of the Philippines conferred Friday on the question of Philippine independence and other matters concerning the islands.

"I am very pleased with my conference with President Truman," Osmeña said as he left the White House.

He referred questions on any date for Philippine independence to Mr. Truman for answer.

Three Hollywood Couples Divorcing

HOLLYWOOD, May 3—(INS)—A suit for divorce today gave permanence to the estrangement between Ida Lupino and Louis Hayward, screen couple.

She filed the suit, accusing her actor husband of extreme cruelty. Married in 1938, they separated a year ago, shortly after Hayward's return from the South Pacific, where, as a captain in the marines, he was wounded at Tarawa and was awarded the bronze star for bravery.

Two other Hollywood marriages also were on the rocks today. Louise Kloss Stein, the harpist, was given a divorce from Max Steiner, director of musical films, after testimony that he became "enraged over absolutely nothing."

Carole Landis said she would seek a divorce soon from Maj. Thomas Wallace of the Army Air Forces. He has signed papers agreeing to end of the marriage.

Voices Fear Of Red Domination
PITTSBURGH, May 3—(INS)—Fear of Russian domination at the San Francisco was voiced today by Dr. Stewart Chapman of the Carnegie Institute of Technology.

Speaking in a series of meetings in the First Unitarian church on the peace sessions, Dr. Chapman said:

"Russian demands at the conference so far are as explicable as American desires to seat an Argentine delegation. And whether we understand or want to understand the position of the Soviet Union, the fact remains that it has obtained only two of the four things which it has raised as issues."

One reason the army has to be in better physical condition than in previous wars is that today 25 miles instead of 13, is considered a day's hike with pack.

Believe London Being Prepared For Early V-E Day

By THURSTON MACAULEY
(U. S. Staff Correspondent)

LONDON, May 3—With the people of London gripped by intense expectancy at the prospect of early peace in Europe, opinion in parliamentary circles swung today toward belief that a V-E Day announcement may come Monday.

Parliament circles saw straws in the wind in the fact that flood-lighting on official buildings was ordered in readiness from Sunday on. Police have been ordered in readiness for any eventuality from Sunday on.

Speed Arrangements
The erection of loudspeakers throughout the city for the relaying of news statements and the construction of platforms in front of local city halls in surrounding areas of London was speeded up. Barriers to protect building fronts from the crush of crowds were being built.

The surge of optimism welling up in the average man in the street was not cooled despite the fact that none of yesterday's jumble of rumors had become fact.

Unofficial observers in Moscow were noted speculating on the possibility that a general Allied surrender call would be issued to all remaining German centers of resistance.

In Moscow it was suggested the time now is approaching rapidly when an ultimatum date might be fixed. After its expiration all Germans continuing the fight would be treated as outlaws.

Londoners, thousands of whom stayed by their radios until the final midnight newscast last night, awoke somewhat disappointed to find that peace had not come in the night. They prepared themselves for yet another day of tense waiting.

VIENNA SERVICES RESUME
NEW YORK, May 3—(INS)—Light and water services have been re-established in Vienna and many factories re-opened, particularly in the Floridsdorf section, the Free Vienna radio said today in a broadcast reported by the FCC.

"Cultural activity is beginning to flourish again," the broadcast said.

Freckle removers are harmless and do what is expected of them. The basic ingredients of freckle removers are: ether, mercury, zinc sulfide, carbolic acid or bismuth.
